

IVFtech Sterile DS

IVFtech
for the next generation

IVFtech Sterile DS double sided cabinet

IVFtech DS Sterile cabinet is a double-sided cabinet which allows the embryologists to work from both sides simultaneously – providing a space saving and sociable solution. The cabinet can have up to 4 heated working areas with stereo microscopes and 2 extra small heated areas in the middle all independently controlled. Ideal for both small and larger laboratories as a peninsular or island unit.

Options

Sizes are available in: 120 and 180cm

Monitor outside

Options table top:

- Standard heat 450 x 650mm
- Extra heat 450 x 200mm
- Witness preparation flush
- IVFtech heated glass Ø45mm
- Table top integrated incubator

Filtration

Class H-14 HEPA filters in accordance with EN 1822. Filter efficiency 99.999% against 0.3 µm particle size. 99.995% in MPPS.

HiMacs or Stainless steel:

The Hi-Macs® table tops provides an excellent alternative to Stainless Steel. The Hi-Macs® surface is stain resistant and easy clean. Hi-Macs® is scratch resistant and doesn't scratch as easy as stainless steel, furthermore the Hi-Macs® surface can be refurbished and repolished. Easy to see the writing on the dish when working on the Hi-Macs® surface.

Advantages

- Easy to use
- Easy to service
- Easy to clean
- Hi-Macs® table tops
- Slope front for ergonomic work
- More work areas in less space
- Effective work flow

Maintenance & Service

All maintenance and service of filters can be performed from one front of the cabinet which in turn reduces down time during service.
